## **Alexander Thiemicke**

Department of Molecular Physiology and Biophysics Vanderbilt University, Nashville, TN, USA

alexander.thiemicke@vanderbilt.edu

(510) 684-2530

Github: alexthie

## **SUMMARY OF QUALIFICATIONS**

Quantitative Biochemist with 8 years of experience in Biomedical Research

- Experience in Writing code in R and Matlab since 4 years and in Python since 2 years
- Demonstrating proficiency in experimental design and mentoring
- Strengths in Quantitative Systems Biology, Molecular Biology, Immunology and R Programming

## **EDUCATION**

| <u>Vanderbilt University</u>  |
|---|
| PhD in Chemical and Physical Biologyexpected <b>06/2020</b>   |
| PhD Thesis: "The effect of temporal NaCl inputs on immune cells", Neuert lab, Vanderbilt University |
| Friedrich Schiller University (FSU) Jena (Germany)  |
| Master of Science in Molecular Medicine05/2014  |
| Master Thesis: "Regulation of antisense RNA in Saccharomyces cerevisiae", Brem lab, UC Berkeley     |
| Bachelor of Science in Biochemistry09/2011  |
| Bachelor Thesis: "Preparation and activity studies of the intramembranous-cleaving                  |
| protease FlaK of <i>Methanococcus maripaludis</i> ", Fritz-Lipmann-Institute for Age Research, Jena |

## **PUBLICATIONS**

- <u>Alexander Thiemicke</u>, Gregor Neuert "Linearly increasing hypertonicity changes cell death by apoptosis, but not activation of inflammation in human immune cells." (in preparation), August 2019.
- Alexander Thiemicke, Hossein Jashnsaz, Guoliang Li, Gregor Neuert "Generating kinetic environments to study dynamic cellular processes in single cells." Scientific Reports, July 2019.
- Benjamin Kesler, Guoliang Li, Alexander Thiemicke, Rohit Venkat, Gregor Neuert "Automated cell boundary and 3D nuclear segmentation of cells in suspension." Scientific Reports, July 2019.
- Guoliang Li, Benjamin K, Kesler, Alexander Thiemicke, Dustin C, Rogers, Gregor Neuert, "Linearly changing stress

| environment causes cellular growth phenotype." BioRxiv 155267 [Preprint], <b>June 25, 2017</b> .                             |
|--|
| - Yulia Mostovoy, <u>Alexander Thiemicke</u> , Tiffany Y. Hsu and Rachel Brem "The Role of Transcription Factors at          |
| · · · · · · · · · · · · · · · · · · ·  |
| Antisense-Expressing Gene Pairs in Yeast." Genome Biology and Evolution, <b>June 27, 2016.</b>                               |
| EXPERIENCE   |
| PhD candidate, Vanderbilt University (Neuert lab)08/2014-present   |
| <ul> <li>Set up Fluorescently labeled barcoded Flow cytometry for human immune cells</li> </ul>                              |
| <ul> <li>Wrote software in R to debarcode and analyze data obtained from flow cytometry experiments</li> </ul>               |
| <ul> <li>Deployed Shiny apps for interactive data visualization and as user interface for flow cytometry software</li> </ul> |
| Conceptualized experiments to understand the systems biology of immune cells   |
| <ul> <li>Developed experimental setup to study temporally varying environments on effect on mammalian cells</li> </ul>       |
| Performed Western Blots and immunofluorescence   |
| Developed Natural language processing pipeline for literature review   |
| Master Thesis student, University of California, Berkeley (Brem lab)03/2013-04/2014  |
| <ul> <li>Performed molecular cloning and qPCR studies in yeast</li> </ul>  |
| Identified novel effects of non-coding RNAs on gene expression   |
| Research Assistant, Max-Planck-Institute for Chemical Ecology Jena (Gershenzon lab)04/2012-12/2012                           |

- Analyzed plant-fungus interactions
- Performed fungus cultivation, RNA extractions, qPCRs

Research assistant, Department of Chemistry, University of Pittsburgh (X. Liu lab)......07/2011-10/2011

Studied and researched the biosynthesis of natural products in *Aspergillus sp.* 

| <ul> <li>Performed molecular cloning, sterile techniques and protein overexpression         Bachelor Thesis student, Fritz-Lipmann-Institute for Age Research Jena (Than lab)</li></ul> |
|---|
| HONORS  |
| <ul> <li>CMCF Annual Symposium Travel Award</li></ul>   |
| PRESENTATIONS   |
| CMCF Annual Symposium, University of California, Irvine (poster)  |
| Member of the 2019 Chemical and Physical Biology Dept. Retreat planning committee   |
| PROFESSIONAL DEVELOPMENT  Data Essentials in Python and Networking communication, Vanderbilt University   |
